# About the Tour

The Monterey Institute of International Studies (MIIS), now the Middlebury Institute of International Studies at Monterey (MIIS), is providing a tour of its interpreter training facilities for those interested in taking a brief walk along the streets of Monterey. The campus is just a few blocks from the conference center and will be celebrating its 50<sup>th</sup> year of training translators and interpreters in 2016. MIIS has the oldest, and one of the very few, conference interpreter training programs in the US. The tour is scheduled for Friday, March 6, 2015, from 11-12 noon.

## Pre-Conference Workshops

### A. *Strategies for Interpreting that Rocks*

Presenter: Daniel Tamayo

**Abstract:** In this practical and highly interactive workshop the participants will work on strategies that will help them improve the quality of their interpretation as they learn to overcome several of the most common challenges faced when interpreting. **The emphasis will be on the effective transfer of meaning between English and Spanish**, particularly when dealing with words and concepts that pose a challenge when transferring into the target language.

Some of the areas that will be covered are:

- How to transfer meaning more seamlessly between English and Spanish, based on key inherent differences between the two languages
- Identifying and overcoming some of the most typical syntactical challenges when interpreting Spanish<>English
- Managing difficult terminology, e.g.: acronyms, measurements, personal and organizational names, and specific cultural references
- Effective research strategies for improved accuracy

#### **Presenter's Bio:**

Daniel Tamayo has been a translation and interpreting professional since 1993. He is the owner and chief trainer of GlobalTradu Language Services, where he also serves as a bi-directional English-Spanish translator and conference interpreter, and as a Spanish editor and proofreader. He has extensive experience in the med-legal interpreting field. Since 2006, he is an instructor and board member at the Interpreting and Translation Program at California State University Fullerton. He has an MA in Translation Studies from the Graduate School of Translation and Interpretation at the Monterey Institute of International Studies and an MA in Spanish from the University of California, Santa Barbara.

### B. *Multilingual Mini-Glossaries for Healthcare Interpreters and Professional Community Engagement*

Presenters: Karin Ruschke and Natalya Mytareva

**Abstract:** Why are mini-glossaries more helpful for a healthcare interpreter than traditional glossaries, dictionaries or databases? How are the terms and their equivalents selected? At what point a mini becomes a maxi? What are the challenges of standardizing terminology equivalents in languages of lesser diffusion? How do mini-glossaries help engage and develop a professional community of medical interpreters?

Join a CCHI Commissioner to discuss these and other questions related to improving terminology knowledge by healthcare interpreters, certified and those who are only preparing for their certification exam. Participants will have an opportunity to engage in an exercise to evaluate quality of proposed equivalents for non-standardized terms. Certification Commission for Healthcare Interpreters (CCHI) offers mini-glossaries for healthcare interpreters as a free public terminology management tool for interpreters of any language and any level of experience.
